МИРОВОЙ РЫНОК ХВОЙНЫХ ПИЛОМАТЕРИАЛОВ

The background features several thin, curved lines in shades of orange and blue, creating a dynamic, abstract pattern. The lines vary in length and curvature, some starting from the top and curving downwards, while others are more horizontal or slightly angled. The overall effect is a modern, minimalist design.

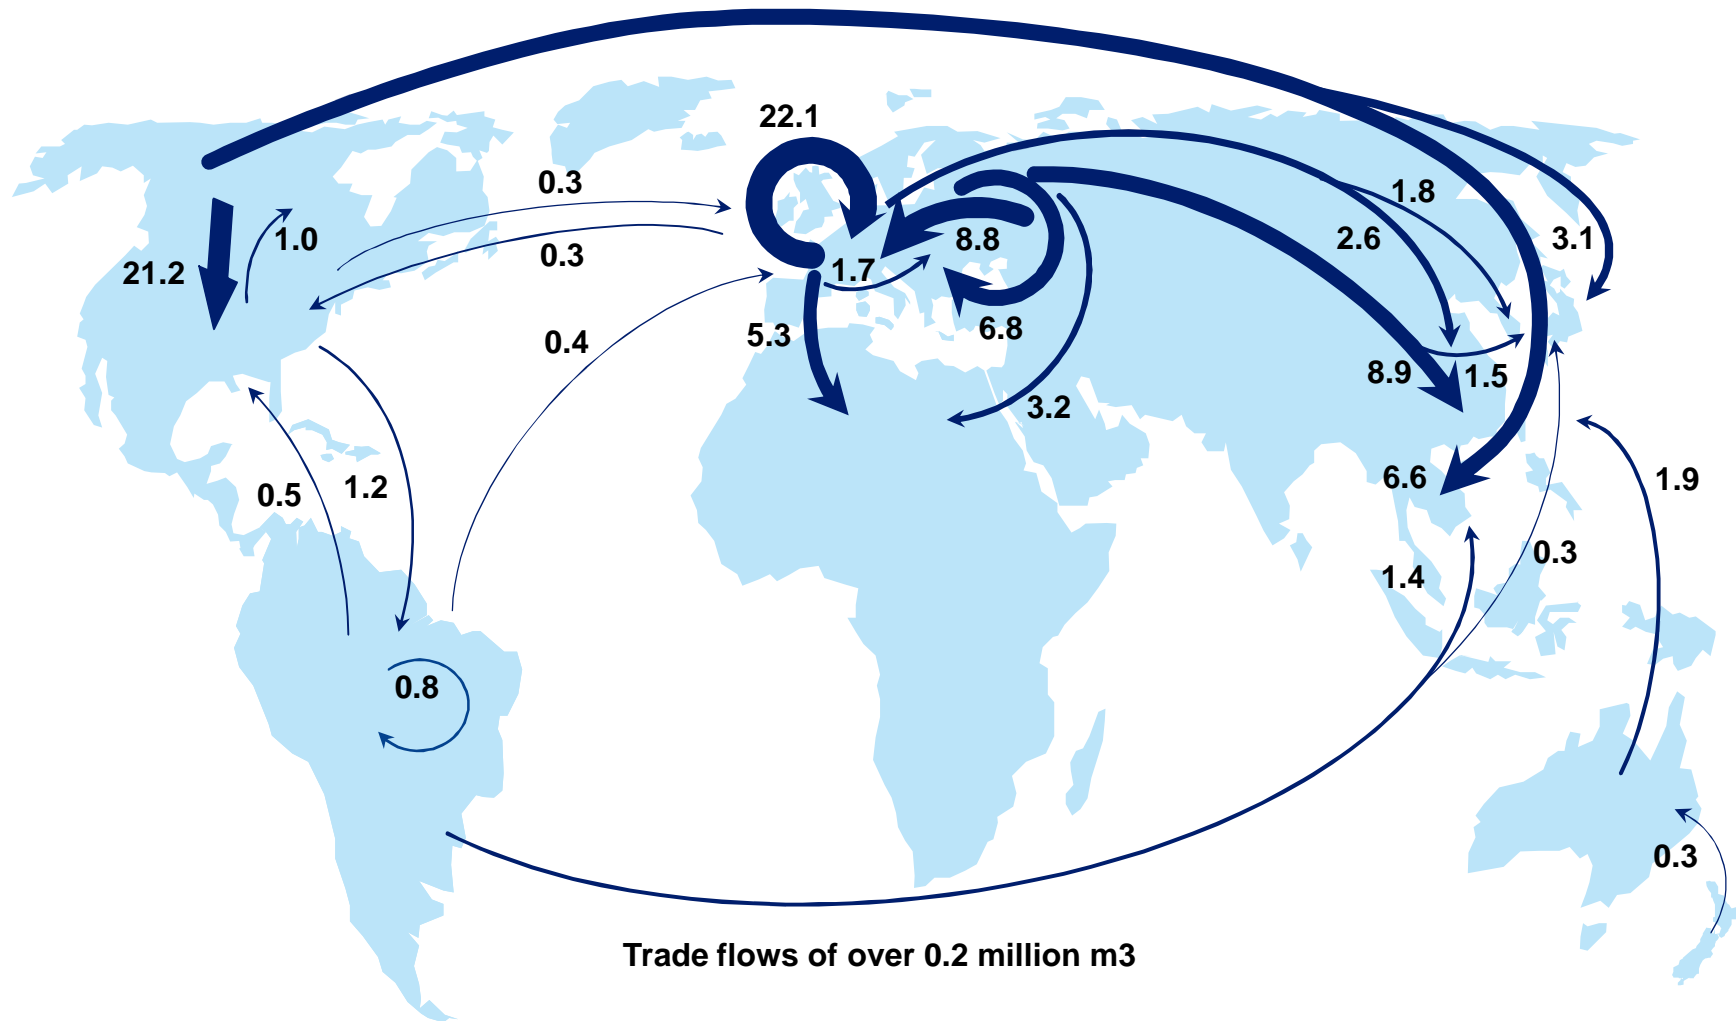

GLOBAL SOFTWOOD SAWNWOOD MARKET IN 2010

North America and Western Europe are the major markets, while growth in supply and demand is expected in Eastern Europe, Russia and Asia. Russian numbers on the map below are based on official statistics.

SAWN SOFTWOOD TRADE FLOWS IN 2010

Sawnwood is a commodity that is traded between continents.

Trade flows of over 0.2 million m³

GLOBAL SOFTWOOD SAWNWOOD MARKET, 2000-2010

Global softwood sawnwood demand has been growing steadily, but the financial crisis had a major impact on the market.

THE LARGEST NET-EXPORTERS GLOBALLY IN 2011

Russia was the second largest net-exporter of sawn softwood globally in 2011. Only Top-12 net-exporters have volumes over 1 million m³/a each while Top-3 net-exporters have over 10 million m³/a each. In this situation the Top-3 countries (Canada, Russian and Sweden) to a large extent sets rules in the global trade.

WESTERN EUROPE – MAIN CONSUMERS AND IMPORTERS

Germany is by far the largest single market in Europe. The main consumers are also the main importers and largest economies in Europe.

WESTERN EUROPE – MAIN PRODUCERS AND EXPORTERS

The main producers are also the main exporters of sawn softwood in Western Europe. Depending on the market, Western Russian exporters compete with the main European exporters.

SAWN SOFTWOOD EXPORTS FROM RUSSIA

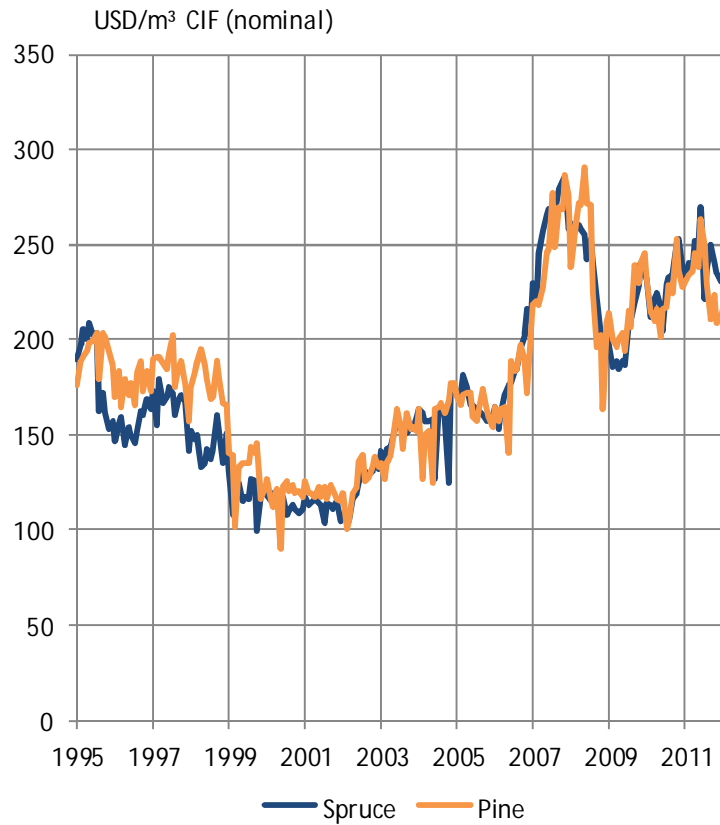

Russian sawn softwood exports are targeting increasingly Asian markets. However, European, North African and Middle Eastern markets are still important, especially for suppliers in Western Russia.

SAWN SOFTWOOD PRICE TRENDS

The Russian sawn softwood prices in Europe follow the trends of Nordic sawnwood.

GLOBAL WOOD AVAILABILITY

Europe is a region with strong competition for raw materials – the growing demand will increasingly be satisfied by imports from other regions which have surplus biomass. Russia and plantation regions offer the largest potential.

DEMAND DRIVERS – NEW RESIDENTIAL HOUSING IN USA

In 2008-2011, new residential housing in the US was on its lowest level in the last 50+ years. The revival is slow but in the mid term perspective the housing activity might reach its historical averages of 1.5-1.6 million dwellings annually which means times 2.5 increase from current level (2011: 608 800 units)

NEW RESIDENTIAL HOUSING IN RUSSIA, BY DWELLINGS

Russia is still over 30% behind its record level of 1987 in new residential housing by number of dwellings. Average area per dwelling in Russia grew from 62 m² in 1987 to 80-86 m² in 2002-2011, so the difference in area is lower – below 15%.
